

TENNESSEE GENERAL ASSEMBLY  
FISCAL REVIEW COMMITTEE

**FISCAL NOTE**

**HB 1718 - SB 1750**

March 3, 2022

**SUMMARY OF BILL:** Authorizes any honorably discharged members of the Tennessee Consolidated Retirement Service (TCRS) who served in the armed forces of the United States to establish credit for each day served of service, without charge to the member provided that: the member received a statement or order of honorable discharge, the member cannot establish service in another retirement system, and the service cannot be used in determining any rights in TCRS prior to the member becoming a vested member of TCRS.

**FISCAL IMPACT:**

**Increase State Expenditures – \$66,763,900/FY22-23  
\$73,262,500/FY23-24**

**Increase Federal Expenditures – \$20,082,700/FY22-23**

**Increase Local Expenditures – \$4,343,900/FY22-23\*  
\$48,841,700/FY23-24\*  
Up to \$10,472,900/FY22-23/Permissive  
Up to \$78,715,300/FY23-24/Permissive**

**Other Fiscal Impact – The total additional lump sum pension liability to the Tennessee Consolidated Retirement System is estimated to be \$205,323,800.**

Assumptions:

*Impact relative to state employees:*

- Based on information from the Tennessee Consolidated Retirement System (TCRS), the total increase of liability to the pension system relative to eligible state employees is estimated to result in a total expenditure of \$80,330,700.
- Based on information provided by TCRS, the cost for state employees is to be paid during FY22-23.
- Retirement benefits for retired state employees are funded 75 percent with state funds and 25 percent with federal funds.
- The one-time increase in state expenditures in FY22-23 for state employees is estimated to be \$60,248,025 (\$80,330,700 x 75%).
- The one-time increase in federal expenditures in FY22-23 for state employees is estimated to be \$20,082,675 (\$80,330,700 x 25%).

**HB 1718 - SB 1750**

*Impact relative to teachers:*

- Based on information from TCRS, the total increase of liability to the pension system relative to eligible teachers is estimated to be \$132,963,967.
- The cost for teachers by LEAs will be funded over a two-year period (FY22-23 and FY23-24).
- Based on time-value-of-money calculations using a 20-year amortization and a 6.75 percent interest rate for estimating the FY22-23 impact relative to eligible teachers, the first-year increase in expenditures is estimated to be \$10,859,829.
- The remaining liability to be paid in FY23-24 is estimated to be \$122,104,138 (\$132,963,967 - \$10,859,829).
- Retirement benefits for retired teachers are funded 60 percent with state funds and 40 percent local government funds, all of which will be a mandatory increase in local government expenditures.
- A one-time increase in state expenditures in FY22-23 of \$6,515,897 (\$10,859,829 x 60%).
- A one-time mandatory increase in local expenditures in FY22-23 of \$4,343,932 (\$10,859,829 x 40%).
- A one-time increase in state expenditures for teachers in FY23-24 of \$73,262,483 (\$122,104,138 x 60%).
- A one-time mandatory increase in local expenditures in FY23-24 of \$48,841,655 (\$122,104,138 x 40%).
- The total one-time increase in state expenditures in FY22-23 is \$66,763,922 (\$60,248,025 + \$6,515,897), and \$73,262,483 in FY23-24.

*Impact relative to local government:*

- Local governments may choose to adopt a resolution authorizing such additional benefits for local government employees.
- Any permissive increase in local government expenditures for the additional liability is dependent on the number of local governments adopting such resolution and the number of applicable employees within those local governments.
- The permissive increase in local government expenditures would be funded 100 percent by local government and the precise amount cannot be reasonably determined.
- Based on information from TCRS, the total increase of liability to local pension systems relative to eligible local employees is estimated to be up to \$89,188,202.
- The cost for local employees by local employers will be funded over a two-year period (FY22-23 and FY23-24).
- Based on time-value-of-money calculations using a 20-year amortization and a 6.75 percent interest rate for estimating the FY22-23 impact relative to eligible local employees, the first-year permissive increase in local expenditures is estimated to be up to \$10,472,942.
- The remaining permissive increase in local expenditures to be paid in FY23-24 is estimated to be up to \$78,715,260 (\$89,188,202 - \$10,472,942).

\*Article II, Section 24 of the Tennessee Constitution provides that: *no law of general application shall impose increased expenditure requirements on cities or counties unless the General Assembly shall provide that the state share in the cost.*
